Middle School

Breakthrough! The Bible for Young Catholic Bible People Flash Cards are trading-size cards that will help early adolescents learn about bible people and events. The back of each card includes

- Scripture references to learn about that person
- important facts about that person
- that person's location in salvation history Teachers and catechists can use these story cards to help students learn about the men and women found in Scripture. These cards are a great addition to a religious education course on the Old or New Testament. The cards can be used as flash cards or as part of a game
